E-Z WET

Soil Penetrant

- Non-Ionic Formula
- Increases Aeration
- Improves Drainage
- Minimizes Puddling
- Leaches Excess Salts
- Reduces Ponding
- Wet Matted Turf
- Alcohol-free

Sprayable Formula

26.00% ACTIVE INGREDIENTS

Grow More E-Z Wet Soil Penetrant 26 is biodegradable, non-ionic, neutral pH and can be used on any soil. Regular use will promote deeper root system, leach excess salts away from the root zone, alleviate run-off, erosion, dry spots and soil compaction problems.

Soil, mulch, sawdust, peat moss, steer manure and other soil preparation mixes will absorb water more readily and will save you time and money.

COMMERCIAL DIRECTIONS:

LAWNS, FAIRWAYS, ATHLETIC FIELDS: Use 1.25 to 2.5 gallons (11 to 23 liters/HA) of E-Z Wet Soil Penetrant per acre every 3 to 4 months, applied in 50 to 100 gallons (450 to 910 Liters) of water, follow up with a 10-minute irrigation or use 32 to 40 ounces (2.1 to 2.7 liter/HA) of E-Z Wet Soil Penetrant in 40 to 50 gallons (365 to 454 liters) of water per acre, once a month. For smaller areas, use 1 to 3 ounces per 1,000 square feet (31 to 93 mls/100 sq. ms).

COMMERCIAL GREENS & TEES: Use 1 to 3 ozs. of E-Z Wet Soil Penetrant per 1,000 sq. ft. (31-93 ml per 100 sq. ms.) applied in 5 to 10 gallons of water. Follow with 10 minute irrigation. Repeat every 4 to 8 weeks or as needed.

AGRICULTURAL CROPS: E-Z Wet Soil Penetrant can be sprayed at rates as low as 1 pint per acre (1.1 liters/HA). Use at least 20 gallons (184 liters) of water per acre.

NURSERIES, GREENHOUSES & LANDSCAPING: If planting media is moist, drench with 20 to 24 ounces (590 to 710 ml) of E-Z Wet Soil Penetrant. If planting media is dry, drench with 32-40 ounces (946 to 1183 ml) of E-Z Wet Soil Penetrant per 100 gallons of water (378 liters).

INJECTION: E-Z Wet Soil Penetrant may be used in combination with liquid fertilizer programs. Inject 10 to 20 ppm daily or use 75 to 100 ppm weekly.

IRRIGATION SYSTEM: For larger areas, use E-Z Wet Soil Penetrant at the rate of 16 to 64 ozs. per acre (1.1 to 4.4 liters/HA), every 4 to 8 weeks or as need arises.

CURATIVE COMPACTED SOIL: Use 1 1/2 to 6 gallons of E-Z Wet Soil Penetrant in 100 gallons of water per acre (13 1/2 to 55 liters/HA in 908 gallons water) or 12 ounces (370 mls in 50 liters water per 100 sq. ms) in 10 to 12 gals. of water per 1,000 sq. ft. Repeat every 4-6 weeks. Severely compacted soil may be treated 2 to 3 weeks.
