

GENERAL INFORMATION Entrada is a proprietary blend of highly effective, nonionic surfactants and a refined modified spray oil designed for use with pesticides or products whose labels recommend the addition of a spray adjuvant to improve coverage.

The addition of Entrada to a spray tank solution will improve spray application by physically modifying the deposition and wetting characteristics of the spray droplets, which will result in a more uniform spray deposit. However, optimum application and effect can be affected by the pesticide or product, the carrier, crop, pest, type of spray equipment, volume of spray and pressure, droplet size and environmental factor.

DIRECTION FOR USE The addition of a spray adjuvant to some pesticide tank mix combination may cause phytotoxicity to the foliage and or fruit of susceptible crops or plants, therefore prior to use of Entrada in a spray tank mix or application to crops or plants the user or application advisor should perform a test spray under similar environmental and cultural condition to determine phytotoxicity.

USE: MAY BE APPLIED BY GROUND, AERIAL OR CDA.

GROUND: Use 3 to 5 pints (1.4 to 2.4 Liters) per 100 gallons (380 Liters) of spray solution.

Use 3 to 5 fluid ounces (85 to 140 mLs) in 1 to 5 gallons (4 to 19 Liters) of spray solution.

AERIAL: Use 3 fluid ounces (85 mLs) in 1 to 3 gallons (4 to 12 Liters) and 5 ozs (140 mLs) above 3 gallons (12 Liters).

NOTE: Some pesticide labels may recommend higher or lower rates of spray adjuvant Follow pesticide manufacturer's recommendation.

MIXING

- 1) Clean all spray mixing and application equipment prior to tank mixing. To prevent or minimize foaming, fill tank 3/4 full of water and add an anti foaming agent to the spray tank before adding pesticide, nutrients or Entrada.
- 2) Add pesticide, nutrients or fertilizer as directed by label or as follows:
A) Micronutrients and fertilizer B) Dispersible granules or dry flowables
C) Flowable liquids D) Water soluble pesticides E) Emulsifiable concentrate
- 3) Continue agitation. Add Entrada and mix for 1 to 2 minutes with reduced agitation
- 4) Add balance of water to tank while maintaining agitation.

GROW  MORE®

ENTRADA

Modified Vegetable Oil Surfactant Concentrate

Principal Functioning Agents:

Methylated Vegetable Oil, Alkylphenol Ethoxylate
and Modified Polydimethylsiloxane.....100%

Contains Organosilicone Surfactant
All ingredients are exempt from tolerance
requirements under CFR40,180.

KEEP OUT OF REACH OF CHILDREN

NET CONTENT 1 Liter
 Gallon (3.78 Liters)
 2.5 Gallon (9.46 Liters)

EPA Est. No. 70908-CA-1

PRECAUTIONARY STATEMENT CAUTION

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wear chemical resistant gloves. Wash thoroughly with soap and water after handling.

FIRST AID

IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow.
Do not induce vomiting unless told to do so by a poison control center or doctor.
Do not give anything by mouth to an unconscious or convulsing person

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes.
Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
Call a poison control center or doctor for treatment advice.

IF ON SKIN OR CLOTHING: Take off contaminated clothing.
Rinse skin immediately with plenty of water for 15-20 minutes.
Call poison control center or doctor for treatment advice

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible.
Call a poison control center or doctor for further treatment advice.

ENVIRONMENTAL HAZARDS

Do not contaminate water sources by cleaning equipment or disposal of wash-waters.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in original container only. Keep container tightly closed. Do not allow water to be introduced into the, contents of this container. Do not store near heat or open flame. Do not store with oxidizing agents.

Pesticide Disposal: Wastes resulting from the use of this product may be dispersed off on site or at an approved waste disposal facility. Do not contaminate water sources by runoff from cleaning of equipment, disposal of equipment wash-waters, or spray waste.

Container Disposal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose off in a sanitary landfill or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.
