

GROW  MORE

Designed for use as foliar applications, CITRA GROW POTASSIUM FOLIAR is formulated for the prevention or correction of nutrient deficiencies during the growing season.

**DIRECTIONS:**

We recommend performing tissue test to determine crops utilization of potassium.

**FIELD & VEGETABLE CROPS:**

Foliar Feed: Use 2 to 3 quarts per acre (4.5 to 6.8 liters per HA). Apply at 4 to 5 true leaf stage or at bud stage before bloom. Subsequent applications can be made at 3 to 4-week intervals as needed. Use sufficient water for full coverage spray.

**FRUIT, VINE & NUT CROPS:**

Foliar Feed: Use 4 to 6 quarts per acre (9 to 14 liters per HA). Apply at bud swell or as pre-bloom spray. Subsequent applications can be every 4-6 weeks as needed. Use sufficient water for full coverage spray.

**FRUIT; APPLES, PEARS OTHER DOME FRUIT:**

Use 4 to 8 quart acre (9 to 18 Ltrs HA) in sufficient water for full coverage spray. Four applications are recommended, at green tip, pre-bloom pink bud; post bloom and early fruit formation.

# CITRA-GROW Potassium

**FOLIAR**  
**0-0-20**

**GUARANTEED ANALYSIS**

**Soluble Potash (K<sub>2</sub>O).....20.0%**

Derived from Potassium Citrate

**CAUTION**

**KEEP OUT OF REACH OF CHILDREN**

DENSITY: 11.00 LBS/ GALLON

**Net Content: 275 Gallons**

**PLUMS, NECTARINES, OTHER STONE FRUIT:**

Use 4 to 8 quarts / acre (9 to 18 Ltrs HA) in sufficient water for full coverage spray. Four applications are recommended, at pink or white bud, post bloom, young fruit about 14-21 days after bloom then again 3 weeks later.

**NUT CROPS:**

Use 4 to 8 quarts / acre (9 to 18 Ltrs / HA) in sufficient water for full coverage spray. Four applications are recommended, at signs of first growth in spring, at pink or white but, at fruit set then again 14 to 21 days later.

**MIXING-STORAGE-HANDLING:**

Add Citra-Grow to tank when half-full. Perform jar test prior to using previously untried combinations. Protect from freezing.

**COMPATIBILITY:**

Dilute Citra-Grow prior to adding other spray chemicals. Grow More is compatible with most commonly used pesticides, herbicides, fungicides, amines and surfactants. Should not be mixed with basic Zinc. Sulfates, Zinc Oxides, basic Copper Sulfates, fixed Copper and Bordeaux.

**WARNING:** This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
