

# FERT-ALL AMINO CROP MICRONUTRIENTS

**Formulated with:**

- Amino Acids and Organic Carboxylic Acids
- Sugars, Carbohydrates
- Lignin Sulfonate
- Cationic Charged (+ +) micronutrients
- Are More Efficiently Absorbed and Utilized
- For Soil or Foliar Application

	AMINO N	Ca	Mg	S	Fe	Mn	Zn	Cu	B	Mo	Co
Zinc Mg	3	-	1	4.4	2	-	3				
Zinc	2.8	-	-	5	-	-	10				
Calcio	3	6	-	-							
Magnesio	2.4	-	4	5	-						
Crop Mix	1	-	-	3.6	1	2	4				
Fierro	3	-	-	3.5	5						
Micro Mix	1	-	0.10	5.2	3	0.25	4	0.04	0.04	0.005	0.002
BMC	2	-	-	-	-	-	-	-	6	0.008	0.008

Amino acids, sugars and carboxylic acid are absorbed into plant tissues to be either stored in the cytosol (storage pools) of the plant or metabolized to indirectly save the plant energy.

The cationic charge (+) ensures that **FERT-ALL Micronutrients** are efficiently absorbed as foliar sprays or when applied to the soil.
