Chelated  
Micronutrients  
and Soil  
Penetrant

Plant Food for  
All Types of Citrus

20-10-15

NET WT. 1.5 LBS. (697 GRAMS)

Properly timed foliar or soil application of Grow More Citrus Food can help improve fruit color, firmness and earlier maturity. Helps trees respond with improved vigor, foliage color and helps reduce alternate year bearing tendencies.

For use on all citrus - orange, lemon, grapefruit, tangerine, limes and tangelo.

**DIRECTIONS:**

**Foliar** - Use 1 teaspoon per gallon of water, apply to wet foliage. May be applied with any sprayer feeder designed to apply water-soluble fertilizer.

**Soil** - Use 1 tablespoon per gallon of water, apply to base of plant under drip zone of leaves. Apply with sprinkling can, pail or proportioner.

For best results and to maintain growth, 3 to 4 applications per year are recommended.

1st - Early Spring to increase the set of fruit as well as improve fruit quality and leaf size.

2nd - Late Spring, early Summer application will aid in producing quality fruit of uniform size.

3rd - A Fall application will cause earlier maturity of navel oranges.

4th - Application optional
