FOR DECORATIVE
POND & FISH POND
MAINTENANCE

PREVENTS ALGAE
SLIME, GREEN WATER
SLUDGE & ODORS

NET WT. 1 LB. (454 GRAMS)

DAY 1 - PURGE TREATMENT

Purging is recommended to overcome possible toxic conditions in ponds and other waterscapes where fishes are to be kept. Pre-dissolve ECO POND CLEAR with 2-3 gallons of pond water prior to adding treatment to pond.

PURGE DOSE:	POND SIZE:	
	Gallons	Liters
6.0 tbsps. (85 grams)	1,000 gals. /	3,785 ltrs
3.0 tbsps. (43 grams)	500 gals. /	1,893 ltrs
1.5 tbsp. (22 grams)	250 gals. /	946 ltrs
1.0 tbsp. (14 grams)	100 gals. /	379 ltrs

DAY 3 - EQUILIBRIUM ESTABLISHMENT

Establishment of a proper balance in the bacteria colony count is essential to the health of the aquatic environment. Pre-dissolve ECO POND CLEAR with 1 to 2 gallons of pond water prior to adding treatment to pond.

PURGE DOSE:	POND SIZE:	
	Gallons	Liters
2.0 tbsps. (28 grams)	1,000 gals. /	3,785 ltrs
1.0 tbsp. (14 grams)	500 gals. /	1,893 ltrs
0.5 tbsp. (7 grams)	250 gals. /	946 ltrs
1.0 tsp. (5 grams)	100 gals. /	379 ltrs

MAINTENANCE:

Weekly maintenance is a natural way to minimize stress on your fish and limit toxic hydrogen sulfide and ammonia. Pre-dissolve ECO POND CLEAR with 1 to 2 gallons of pond water prior to adding treatment to pond.

PURGE DOSE:	POND SIZE:	
	Gallons	Liters
1.0 tbsp. (14 grams)	1,000 gals. /	3,785 ltrs
0.5 tbsp. (7 grams)	500 gals. /	1,893 ltrs
1.0 tsp. (5 grams)	250 gals. /	946 ltrs
0.5 tsp. (3 grams)	100 gals. /	379 ltrs

(NOTE: Use level tablespoon/teaspoon to be accurate)
